What was measured, and how to read it

You completed the VIFM online behavioural psychometric assessment. It measures how you typically work against the VIFM competency framework and rates each competency on a 1-5 scale. Your responses are compared against a reference group of professionals who completed the same assessment.

This report describes your result on every competency that was measured, grouped by behavioural domain, with a short explanation of what each one assesses and a plain reading of your result. It reflects how you described your own way of working - it is a record of your results, not a hiring decision.

WHAT THIS ASSESSMENT COVERS

Your competencies sit across the four VIFM behavioural domains. The assessment measured 8 of them in total.

WHAT IT MEASURES

Sets direction with a long-term, whole-organisation view and anticipates how external shifts affect the business.

YOUR RESULT

You show strength here. You apply it consistently, and it is something colleagues can count on.

Critical Analysis

4/5 · Strength

WHAT IT MEASURES

Breaks down complex information, tests assumptions, and separates signal from noise before concluding.

YOUR RESULT

You show strength here. You apply it consistently, and it is something colleagues can count on.

Sound Judgement

3/5 · Competent

WHAT IT MEASURES

Weights risk and reward proportionately to reach balanced decisions, including under time pressure.

YOUR RESULT

You are solid here, meeting what the role asks in familiar situations. With more stretch, you could make this a signature strength.

RESULTS

Outcome Ownership

4/5 · Strength

WHAT IT MEASURES

Takes personal accountability for results and turns an ambiguous remit into delivered outcomes.

YOUR RESULT

You show strength here. You apply it consistently, and it is something colleagues can count on.

Planning & Prioritisation

3/5 · Competent

WHAT IT MEASURES

Organises work and sequences priorities so the right things get done in the right order.

YOUR RESULT

You are solid here, meeting what the role asks in familiar situations. With more stretch, you could make this a signature strength.

PEOPLE

Clear & Adaptive Communication

2/5 · Development Needed

WHAT IT MEASURES
